

IRONS AND OPTIONS

From the Sidi experience comes an innovative, manageable and revolutionary iron. STAR LUXE is an electric steam iron with an external micro and a universal handle, that's perfectly ergonomic. The tapered shape of the sole guarantees flawless ironing even on hard-to-reach areas (pockets, cuffs, seams, etc.).

Available also in version STAR , particularly suitable for left-handed operators, equipped with patented Triple-Touch system. This allows to operate the micro-switch from every side: left, right and center, making vertical use of the iron very easy. It's unique handle allows customized use of the iron, open or closed.

Tapered sole in die-cast aluminum, with internal heating element and a labyrinth with 31 chambers to obtain dry steam even at low temperature 3-row hole design to allow excellent steam distribution on the fabric, and an eyelet on the end for seam-opening. New thermostat that guarantees optimal temperature (125-180°C).

+ Available extras upon request:

- hand protection (against rising steam);
- teflon shoe;
- hook for iron suspension.

+ Technical data:

- electric power 230/1/50 Hz*;
- iron heating element 0.8 KW;
- weight 1.8 kg.

*Other voltages by request.
